Metal Center Strip

Available in heights of 4 1/2", 5 1/2", 6 1/2", 7 1/2", 8 1/2", and 9 1/2".

Key Lock® Joint Systems by Form-A-Key

Features joint and stake interlock to keep the joint from floating or rising from the stake.

Eliminates time-consuming process of wiring, screwing, or nailing joint to a stake or peg.

Square top designed to minimize spalling and to provide for expansion to control cracking.

Eliminates checker boarding, edge curling, and saw cutting.

Saves on installation time. Stakes interlock with joint at any point. Joint splice eliminates need to place stake at joint butts.

Each keyway individually designed for maximum load transfer with keyway centered in slab.

Available in 10' lengths for 4", 5", 6", 8", 10" and 12" slabs.

Stakes available in 12", 15", 18" and 24" lengths.
